POST-RACE KIT

Your post-race kit refers to the non-race clothing you turn up to the race in and want to have back at the finish—don't confuse this section with your obligatory equipment. When you collect your race number you will receive a sticker with your race number on it. Stick this number on your own bag containing clean clothes for after the race.

Drop this bag at the designated spot at the start and these will be transported by the race organisers to the finish zone.

RULES

- Runners must follow the waymarked route.
- All participants must be aware of the inherent risks when competing in an off-road running event like this. Any seriously injured athletes will be escorted to safety as quickly as possible by the event's designated first-aid staff, however, the weather and terrain conditions can affect the speed with which a rescue can be carried out. As such, it is essential that athletes adhere to the obligatory kit list.
- All litter, including gel wrappers, bottles etc., must be carried until you reach the nearest checkpoint or the finish line.
- We ask that all competitors take responsibility for their own wellbeing as well as those around them. As such, we expect you to take care of an injured athlete until help arrives.
- If an athlete wishes to pull out of the event, you have to inform the nearest staffed checkpoint.
- While support is not essential, it is permitted at feed stations. Athletes may not receive support along the route.
- Pacing is NOT allowed.
- If the race organisers deem an athlete unable to complete the race due to signs of advanced fatigue or injury, we may ask an athlete to withdraw.
- We have zero tolerance towards doping and cheating.
